CREATE Arts Center (900 W. 4th St., Newport, WA)

Silviculture: A Pend Oreille County Case Study

Sponsored by the Kalispel Tribe and the Selkirk Alliance for Science

Silviculture is the practice of controlling the growth, composition, health, and quality of forests to meet diverse needs and values. The Kalispel Tribe's Silviculturalist, Tim Larkoski, recently completed the process to become a Certified Silviculturalist. This is no easy task and requires a rigorous academic regimen of peer-review and certification. We are excited to share the findings of this study.

Come on Down!

This presentation is the newest edition in our "Power of Science" series. Learn about the exciting science that is occurring in Northeast Washington and Northern Idaho.
